## EMORA slim INSTAGRIP sling strap

**EMORA** Slim Instagrip sling camera strap, in black, is designed especially for users of full frame and compact mirrorless cameras to gain instant access to their camera. Made of soft neoprene material with anti-slip under-weave **EMORA** Slim Instagrip is thinner in design, prevents shoulder aches and slipping off when carrying the camera over an extended period of time. The strap can be easily and securely attached to the camera by rotating the aluminium fastener directly onto the camera's tripod base. Adjustable straps and swivel buckle help ensure maximum compatibility with different equipment. Dual lock buckle further helps prevent accidental release and the built-in underarm tether restricts the camera from swinging outward whilst on the move.

### Specifications:

Shoulder Pad:	Soft neoprene with anti-slip padding
Padding beneath:	35cm
Length of strap:	72cm
Chest swivel angle:	120 degree
Strap material:	Nylon
Locking mechanism:	Rotating aluminium fastener
Laden weight:	6kg (max.)
